Who Am I?

I hold a degree in Mobile Technologies from Okan University, where I began my journey in the mobile development world by creating native Android applications. Over the years, I have honed my skills in cross-platform development, specializing in the React Native framework. With extensive experience in building scalable and user-friendly mobile applications, I excel in state management tools like Redux and RTK Query, as well as integrating backend services with Firebase, Prisma, and REST APIs. My passion lies in crafting seamless user experiences while leveraging modern technologies such as TypeScript, Node.js, and NestJS. I am committed to delivering innovative and efficient solutions tailored to client needs.

Experience

Sekiz Agency - Mobile Application Engineer

2023-2025

Ucuzyolu

A travel and ticket booking platform designed to simplify travel planning for users. Integrated flight, hotel, and bus ticket search with Redux and RTK Query for seamless data management. Focused on providing an intuitive user experience for optimized booking processes.

Web Development Intern - Nar Sistem - (2017)

OKAN University - Mobile Technologies ,

Anadolu University - History Department (Undergraduate Education)

Skills

Frontend Development

- **React Native (Advanced)**
- **ReactJS (Advanced)**
- **NextJS**
- **TypeScript**
- **JavaScript**
- **Context API**
- **RTK Query, Redux, MobX**
- **Function-Based Programming**
- **Mobile UI/UX Design Principles**

Backend Development

- **NodeJS (Advanced)**
- **NestJS (API Development & Microservices)**
- **Prisma ORM**
- **MongoDB, PostgreSQL**
- **RESTful APIs, GraphQL**

Cross-Platform & Native Development

- **Android (Java, Kotlin Basics)**
- **Middleware & Native Bridges**
- **Unity (C# - Game Development)**

Cloud Services & DevOps

- **Firebase Tools (Push Notifications, Firestore, App Distribution, Authentication)**
 - **CI/CD Pipelines (Basics: GitHub Actions, Bitrise)**
 - **AWS (Lambda, S3 Basics)**
-

Testing & Debugging

- **Jest, Enzyme (Frontend Testing)**
- **Reactotron (Debugging for React Native)**

Other Skills

- **Agile Methodologies (JIRA, Trello)**
 - **Git, Version Control Management**
 - **WebSocket (Real-Time Communication)**
 - **E-commerce Integrations**
 - **Payment Systems (Stripe, PayPal Basics)**
 - **Problem Solving & Analytical Thinking**
